The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 3, 4, 6, 8-10, and 13 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The claims are incomplete because they do not recite any step of treatment or action that would follow from any particular result in the determination of p53 gene or expression status (claims 3, 4, 5, and 8-10) or p21 expression (claim 13). Inclusion of such step or steps would be sufficient to overcome this rejection.

Claims 3, 4, 6, 8-10, and 13 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. This rejection is repeated for reasons already of record (*e.g.*, Office action mailed December 23, 2008, page 3). The claims do not recite or result in a transformative result, but merely recite methods of comparison. For example, there are no steps for treating a subject as a result of the claimed methods. Inclusion of such step or steps would be sufficient to overcome this rejection.

Claim 7 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claim 14 is allowable over the prior art of record.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to James Martinell whose telephone number is (571) 272-0719.
